between lines 3 and 4, insert the following
sub-heading: 2. Discussion of Prior Art; and

between lines 14 and 15, insert the following
heading:

--SUMMARY OF THE INVENTION--.

Page 3, between lines 10 and 11, insert the following
heading:

--BRIEF DESCRIPTION OF THE DRAWINGS--; and

between lines 24 and 25, insert the following
heading:

--DETAILED DESCRIPTION OF PREFERRED EMBODIMENTS--.

IN THE CLAIMS:

Please cancel, without prejudice, claims 7-9, amend
claims 1 and 2 and enter newly written claims 10 and 11 as
follows:

1. (Amended) A fuel control system for the reheat
burners of a gas turbine engine, comprising:
a source of pressurized fuel,
a plurality of metering valve[s] means for regulating
fuel flow from said source to respective ones of a plurality
of burner manifolds, and
means, operable when one of said metering valve[s]
means is shut, for introducing fuel at ^{regulated} ~~predetermined~~ refer-
ence pressure into the manifold associated with said one
valve means.

Claim 2, line 3, change "valves" to --valve means--.

--⁷10. A fuel control system for the reheater burners of a gas turbine engine, comprising:

a source of pressurized fuel;

a plurality of metering valve means for regulating fuel flow from said source to respective ones of a plurality of burner manifolds;

means, operable when one of said metering valves is shut, for introducing fuel at predetermined reference pressure into the manifold associated with said one valve means; and

a plurality of throttle valves between respective ones of said metering valve means and their respective manifolds, one of said throttle valves including ports which, when said throttle valve is shut, connect said reference pressure to the manifold associated with said one throttle valve.

⁸11. A system as claimed in claim ⁷10 which includes relief valves in the respective burner manifolds, said relief valves being arranged to lift at pressures greater than said reference pressure.--

REMARKS

Claims 1 and 4 stand rejected with claims 2, 3, 5 and 6 objected to and claims 7 through 9 withdrawn from consideration in the outstanding Official Action. Claims 7-9 have been cancelled, claims 1 and 2 have been amended and newly written claims 10 and 11 offered for consideration.
